Chromebook Insurance Terms & Conditions

The optional Chromebook insurance program provides an inexpensive solution for parents to lessen the financial burden in the event that their student's device is **accidentally damaged** or lost. Chromebook insurance does not cover intentional damage such as scratches, markings, or flagrant mistreatment of the device.

Parents/guardians may choose not to enroll in the Chromebook Insurance Program, but will be financially responsible if their student's Chromebook is damaged or lost.

Chromebook Insurance Cost: \$50 annually

Covers the Chromebook for two incidents of accidental damage or loss for one year, no deductible for two incidents.

Stipulations

- Chargers and cords are not covered by insurance.*
- If a lost Chromebook is later recovered, the incident will be removed from the record and any fees will be refunded.
- If a student does not have insurance or they have exceeded two incidents of damage or loss in one year, parents/guardians may be responsible for repair and/or replacement costs (see below).
- If a student leaves the district, but does not return the Chromebook, they will be fined for the full replacement cost, and standard rules for the restriction of records and transcripts would apply. Law enforcement may be involved for the purpose of recovering district property.
- The Chromebook Insurance Program covers the current school year and is non-refundable.
- The following fees may be applied after 2 incidents, or if damage is determined to be intentional.

Chromebook Repair & Replacement Costs

Incident Type	Estimated Cost
Chromebook Replacement	\$320
Broken Screen	\$150
Broken Keyboard	\$100
Charger Replacement*	\$25

Incidents will be evaluated on a case-by-case basis and final determination of financial responsibility for repair and/or replacement will be made by administration. Failure to pay fees may result in the high school diploma being held or loss of privileges.
